## Projects

### MERN Authentication App

[App Site](#)

MONGODB, EXPRESS.JS, REACT, NODE.JS, MONGOOSE, JWT, BCrypt, Nodemailer

[Apr. 2021](#)

- App that allows users to register and see a private page and allows them to reset their password after receiving an email.
- Learned how to use middle-ware, integrate JWT tokens for authentication and private routing.
- Learned how to set up a MongoDB connection via Atlas and have authentication functions in a User Schema.

### Covid-19 Tracking App

[GitHub Repo](#)

HTML, CSS, JAVASCRIPT, FETCH API, CHARTJS

[Feb. 2021](#)

- Created a Covid19 tracker with live data that tracks daily and total cases per province
- Used ChartJS and the Fetch API to display covid data based off of each province selected.
- Learned how to filter JSON data into displayable data and better structure my code with callback functions

### Personal Portfolio Website

[App Site](#)

HTML, CSS, SASS, JAVASCRIPT, FRAMER MOTION API, RESPONSIVE COMPONENT DESIGN, REACT HOOKS

[Sep. 2020](#)

- Created a portfolio website to better understand React Components and how to deploy a static site.
- Learned how to create mobile first design components and integrate external API's for animation purposes.
- Learned React Hooks and better understood state management in a React Application.

## Work Experience

### United Parcel Service Canada

[Mississauga, ON](#)

ACCOUNT MANAGER - FREIGHT FORWARDING

[Apr. 2018 - Aug. 2019](#)

- Tasked with growing new and existing accounts within western Ontario. Successfully converted a \$200K retail customer in 2018. Overall sales plan grew by 20% in 2018.
- Sold services within the UPS Portfolio which included air freight, ocean freight, and import brokerage services.
- Trained customers on how to use a customer facing tracking tool (Flex Global View) designed specifically to help customer's track shipments, build reports and view invoices.

### United Parcel Service Canada

[Burlington, ON](#)

ACCOUNT MANAGER - SMALL PACKAGE

[Aug. 2017 - Mar. 2018](#)

- Responsible for developing new business for UPS Canada within the small package division.
- Managed a portfolio of customers in various industries. Mandate included providing a full range of logistical and online retail solutions for small/medium sized businesses in Ontario. Uncovered \$300K of annual revenue during that span.
- Leader among inside sales team in total talk time, amount of calls and new customer engagements.
- Averaged 3-6 hours of productive talk time per day and made 30-40 calls daily to new businesses within my territory.
